

# Bandsaw machine DYNASAW430

## DIMENSIONS

## CUTTING TECHNOLOGY

### DYNASAW430: Cutting technology using the newly developed DYNABAND

The fully automatic bandsaw machine DYNASAW430 sets new standards concerning economic efficiency and tool life due to AMADA's newly developed concept.

A sturdy, column-guided machine construction leads, in connection with use of the newly developed DYNABLADE, to best cutting results and tool life.

- CNC-Control
- Automatic table cleaning
- Brush table reducing the burr at the cut piece
- 35 mm remnant piece length
- Automatic wire brush
- 700 mm feed length per stroke
- Automatic loading function
- Automatic blade guide arm positioning

## TECHNICAL DATA

<b>Cutting capacity (mm)</b>	Ø 430, 430 x 430
<b>Motor power (kW)</b>	Blade drive 5,0 Hydraulic 1,5
<b>Material feed (mm)</b>	per stroke 700
<b>Blade speed (m/min)</b>	15-120 stepless
<b>Table height (mm)</b>	700

<b>Saw blade dimension (mm)</b>	41 x 1,3 x 5.300
<b>Machine dimension (mm)</b>	2.520 x 2.060 x 2.180
<b>Machine weight (kg)</b>	3.000
<b>Color</b>	red-black
